Createspace, United States, 2011. Paperback. Book Condition: New. 198 x 126 mm. Language: English . Brand New Book ***** Print on Demand *****.Were planes really hijacked on 9/11? What is the credible evidence that any planes were overtaken by anyone? Were there any planes with passengers associated with the attacks? The evidence given to the public of hijackings came through the phone calls made by passengers supposedly at elevations higher than a cell phone can be used. You will read further that many of the conversations have internal contradictions and contradict each other. Furthermore, no credible videotape of any of the so-called hijackers at any of the airports in question has ever surfaced. A tape released in 2004 that was purportedly of hijackers at Dulles Airport on 9/11 has been challenged widely for its lack of date and time of recording. Nor has any independent authority ever established the finding of the remains of any of the passengers at the crime scenes. And there is no record of any pilot taking a few seconds to punch in the emergency code that pilots are taught to use in hijackings! Instead, the plotters spread the phony story of nineteen hijackers to scare the public into believing that a group of Muslims, acting under orders from radicals who hate the United States, committed an unspeakable atrocity on our soil. The official story needed scapegoats and a motive for them to act against us. The use of hijacker names and pictures in the mainstream media shortly after the event also began to lock up a verdict of guilty against Osama bin Laden, al Qaeda and all other terrorists in the public mind without a trial by reasoned inquiry. But the clinching blow was the selling of the story of hijackings by people who do...
