EXTINCT BRITISH ANIMALS

CreateSpace Independent Publishing Platform. Paperback. Book Condition: New. This item is printed on demand. Paperback. 266 pages. Dimensions: 9.0in. x 6.0in. x 0.6in. From The Popular Science Review: MR. HARTING opens the introduction to his treatise on recently extinguished British Mammals in the following words: The interest which attaches to the history of extinct British animals can only be equaled by the regret which must be felt by all true naturalists at their disappearance beyond recall from our fauna. It is a curious reflection at the present day, as we pass over some of the wilder parts of the country, that at one time these same moors, and woods, and glens, which we now traverse so securely, were infested to such an extent with ferocious animals, that a journey of any length was, on this account, attended with considerable danger. It needs the spirit of the true naturalist to regret the change that has taken place. Either as naturalist or sportsman, however, Mr. Harting revels in the ideas thus conjured up. Packs of wolves, he says, which usually issued forth at night to ravage the herdsman's flocks, were ever ready to attack the solitary herdsman, or unwary traveler on foot, who might venture to pass within reach of their hiding-places. In the oak woods and amongst the reed-beds which fringed the meres, wild boars lurked . . . Many a traveller then had cause to rue the sudden and unexpected rush of some grand old patriarch of the sownder, who, with gnashing tusks, charged out upon the invader of his domain, occasionally unhorsing him, and not unfrequently inflicting severe injuries upon his steed. Degenerate Britons of the present...
