

The Financial Numbers Game: Detecting Creative Accounting Practices (Hardback)

By Charles W. Mulford, Eugene E. Comiskey

John Wiley and Sons Ltd, United States, 2002. Hardback. Book Condition: New. 256 x 186 mm. Language: English . Brand New Book. Praise for The Financial Numbers Game So much for the notion those who can, do-those who can t, teach. Mulford and Comiskey function successfully both as college professors and real-world financial mercenaries. These guys know their balance sheets. The Financial Numbers Game should serve as a survival manual for both serious individual investors and industry pros who study and act upon the interpretation of financial statements. This unique blend of battle-earned scholarship and quality writing is a must-read/must-have reference for serious financial statement analysis. -Bob Acker, Editor/Publisher, The Acker Letter Wall Street s unforgiving attention to quarterly earnings presents ever-increasing pressure on CFOs to manage earnings and expectations. The Financial Numbers Game provides a clear explanation of the ways in which management can stretch, bend, and break accounting rules to reach the desired bottom line. This arms the serious investor or financial analyst with the healthy skepticism required to drive beyond reported results to a clear understanding of a firm s true performance. -Mark Hurley, Managing Director, Training and Development Global Corporate and Investment Banking, Bank of America...

Reviews

An exceptional pdf and the typeface utilized was fascinating to read through. It can be written in straightforward words and phrases instead of confusing. I am just quickly could possibly get a delight of looking at a written ebook.

-- Prof. Arlie Bogan

It is in a single of the best book. This is for those who state there had not been a well worth reading through. Once you begin to read the book, it is extremely difficult to leave it before concluding.
