THE HUMAN BRAIN BOON OR BANE Mother Nature gave the human being a big brain with a well-functioning conscious mind. The brain endowed the human being with his Ego and his culture, his rationality but also his irrationality. The human brain boon or bane The little book is trying to give an answer to this question: reduced to the essentials, always scientifically precise, yet to be easily understood. The seven chapters of the book complement each other just like a mosaic into a comprehensible image of the human being and his world. In this way, it can also serve as a useful orientation support in our media age suffering from information overflow. This item ships from La Vergne, TN. Paperback.
