Reviews

This pdf is indeed gripping and interesting. It is definitely simplistic but shocks within the 50 percent of your book. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Brand New Book ***** Print on Demand *****.This report evaluates the outcomes of World Bank Group support to Afghanistan from 2002-11. Despite extremely difficult security conditions, which deteriorated markedly after 2006, the World Bank Group has commendably established and sustained a large program of support to the country. The key messages of the evaluation are: While World Bank Group strategy has been highly relevant to Afghanistan's situation, beginning in 2006 the strategies could have gone further in adapting ongoing programs to evolving opportunities and needs, and in programming activities sufficient to achieve the objectives of the pillars in those strategies. Overall, Bank Group assistance has achieved substantial progress toward most of its major objectives, although risks to development outcomes remain high. Impressive results have been achieved in public financial management, public health, telecommunications, and community development; substantial outputs have also been achieved in primary education, rural roads, irrigation, and microfinance all started during the initial phase. Bank assistance has been critical in developing the mining sector as a potential engine of growth. However, progress has been limited in civil service reform, agriculture, urban development, and private sector development. The Bank Group's direct financial assistance has been augmented effectively by analytic and advisory activities and donor coordination through the Afghanistan Reconstruction Trust Fund. Knowledge services have been an important part of Bank Group support and have demonstrated the value of strategic analytical work, even in areas where the Bank Group may opt out of direct project financing. With the expected reduction of the international presence in 2014, sustainability of development gains remains a major risk because of capacity constraints and inadequate human resources planning on the civilian side. To enhance program...
