

Handbook for Stream Enhancement and Stewardship

By Izaak Walton, The Izaak Walton League of America

McDonald Woodward Publishing Company, US, United States, 2006. Paperback. Book Condition: New. 2nd ed.. 277 x 213 mm. Language: English . Brand New Book. Decades, or even centuries, of changing and competing land uses have left many of the world's streams degraded, in poor health, and out of balance with the ever-shifting dynamics of their watersheds. This is a basic resource intended to help individuals, groups, organizations, companies, communities, and governments plan and carry out environmentally sound, cost-effective stream corridor assessment, enhancement, and stewardship programs. While not a technical manual for professionals trained in stream restoration, this resource does provide a solid foundation by which volunteers may become informed observers, advocates, and organizers of stream enhancement programs and participants in their implementation.
